

Please use water wisely
for yourself, for your children
and for our beautiful Sifnos

MUNICIPALITY
OF SIFNOS

★ Please use a bucket of water to wash your car, NOT a hose.

★ To further conserve water please use a broom or mop to clean the outer area of your house rather than a running hose which wastes precious water.

★ Do not water the lawn and do not fill the swimming pools from the water supply network.

★ To save water, we can use a watering can to water our plants when permitted and doing so in the early morning or late evening. This way we limit the amount of water lost to evaporation.

★ Please check pipes for leaks or cracks. Check all spigots, sinks and toilet tanks for continually running water.

★ When taking a shower, please use the "telephone" head shower which uses less water. This way saves up to 100 liters and reduces electricity consumption by 50 % (the water heater).

★ Washing machines and dish washers should be used only when they are full.

★ When brushing our teeth or shaving don't let the faucet run continuously. By turning off the faucet we save 20 liters of water! For Sifnos, it is equivalent to wasting 60,000 liters of water per day.
